GRADING

This assignment is worth 16% of your final grade. Marks will be awarded for correct results, coding style, clear documentation. For more on documentation and coding style, please see the [style guide](#). Late assignments are penalized at 10% per business day to max of 50% (does not count weekends and statutory holidays). NOTE that once an assignment is late, it is late and there is a late penalty. If you submit on the Saturday it is 10% because it is late. However, it is 10% until Monday night. In other words, you can wait till Monday to make sure it is perfect. You do not get further penalized on weekends but once the deadline is passed... you will have a late penalty applied.

Non-working assignments (assignments that do not meet the minimum requirements for completion detailed above) will need to be resubmitted. These assignments are considered incomplete and need to be redone before they are considered to be completed, with a 50% grade penalty.

Please note that you must complete all assignments in order to pass this course.
